

EMPLOYEES

Our employees receive appropriate **training** at the beginning of the season. Employees who join our team during the season receive appropriate instruction

Our employees are trained annually in the use of **cleaning agents**. For environmentally friendly cleaning, we use dosing systems to avoid overdosing and environmentally friendly cleaning agents and detergents

Training of employees regarding **waste separation** takes place regularly

Mechanical cleaning saves the use of chemicals. That is why we use steam cleaners, microfibre cloths and hoovers

Employment and recruitment of employees of the 50+ generation as well as international and multilingual employees

We take the private situation of employees into account when it comes to working hours and contribute to a good **work-life balance**

The **cleaning staff** has a bassinet with two separate bins for the extra collected recyclables and one bin for residual waste
